

# Let's Have Fun at Noah's Ark!

## From Computer Club

There are many reasons to enroll your child in computer enrichment classes. My classes provide fun and games while they are visiting on Mondays. Give them a leg up when they return to school. Our library of developmentally appropriate software will strengthen your child's knowledge in multiple areas. Classes are approximately 40 minutes long. Classes are \$12.00 per day.

To register, please complete the form below. Checks payable to M. Marcey.
